REPORT OF THE BOARD OF HEALTH

for the year ending Feb.15, 1905.

During the past year the town was free from all the so-called contagious diseases until the latter part of November and December, when the board was called upon to take action, as there were several cases of scarlet fever reported which happily were of a very mild type in most of the Salisbury, N. H., Aug. 1, 1904.

six cases which occurred. Four families were affected. They were immediately placed in quarantine, and as a further precaution the board closed the school at the South village for a period of four weeks, as the cases were all in that district. This with some routine work by individual members of the board, comprises the work done during the year.

Respectfully submitted,

CHAS. A. GREEN,

JOHN SHAW,

JOHN J. DEARBORN.

Board of Health of Salisbury.
